Re: California Division of Oil, Gas & Geothermal Resources UIC Grant	03/16/2012 09:20 AM

Item Body

Hi Jerry,

I will try to answer as best I can, but will ask Maria to please chime in if more clarification is needed.

The FY12 Grant has not been funded yet.

I just called Addy last Tuesday to introduce ourselves and let her know that the UIC Allocation funds are now available and that I got the grant process started. So, that means it will remain some short period of time before those funds will be made available to the Ca. DOGGR's Class II UIC program for drawdown.

In past, recent years, we were able to provide a portion of the "expected" funds from our regional account.

For instance, please recall last year - FY11 - when we funded \$400,000 in approximately December 2010. The remaining allocation amount of \$137,000 did not become available to your UIC program until approximately July 2011, which included that we "returned" the \$40,000 that the Ca. DOGGR previously contributed toward the contractor costs related to the State UIC Primacy Program Review. The total FY11 funding amount totaled \$537,000. Well, that sums up FY11 according to my memory.

This FY12 fiscal year, we were only able to wait for the Official UIC State Allocation Funds to become fully funded before this FY12 grant can be fully processed. The processing is started, but will take some time before funds are made available to the Ca. Class II UIC program.

Looking forward to meeting with you all if only briefly this coming Thursday, March 22nd morning, before the Ca. Energy Commission meeting that afternoon.

Please call or write us at any tme.

George Robin

Subject: California Division of Oil, Gas & Geothermal Resources UIC Grant

Hello Maria,

I have been informed by our Accounting Manager that they were unsuccessful in drawing down \$154,295 from our UIC grant G009216-12 for this Fed FY. I would like to know what the problem is and what we need to accomplish to get the needed funds. I would appreciate if you can call email or call me at 916-323-1781 or Addy Macias, our Admin Manager at 916-445-2341. Thank you very much for your assistance on this matter.

Jerry Salera
